

2026 Q1 Newsletter

New year, new opportunities

A new year brings new savings for your clients. And as they start planning their 2026 upgrades, now is the perfect time to take advantage of Liberty's Commercial, Industrial and Municipal Energy Efficiency Program. Check out the latest offerings designed to support energy goals and keep clients comfortable and performing at their best.

Project Highlights

Customer:
UniFirst, Lebanon, NH

Project:
Installed over 350 new LED lights with occupancy sensors throughout entire warehouse floor.

1,200
lifetime MWh savings

\$15,021
rebates provided

"The difference has been 'light' and day."

- UniFirst Team Partner

*UniFirst is a trademark of its owners.

Customer:
Tuscan Brands / OMJ Realty – Building 1300

Project:
Installed high-efficiency VRFs, heat pumps and ERVs, paired with above code insulation. This plan kept the space warm while drastically reducing the total heating capacity needed, allowing for a more cost effective and fully electric operation.

2,639
lifetime MWh savings

\$57,821
rebates provided

Your project could be featured next.

Learn how you can help your business customers save on capital improvement projects with Liberty's Energy Efficiency Program rebates.
